MICHAEL R. STYLER  
Executive Director

### Division of Water Rights

KENT L. JONES  
State Engineer/Division Director

December 15, 2016

Doug Evans, Technology Director  
Mountain Regional Water Special Service District  
PO Box 982320  
Park City, UT 84098

Dear Water User:

The following Snyderville Basin water users submit their Water Use Plans to the Division of Water Rights at the beginning of each year:

Clissold Investment Company  
Glenwild Golf Course  
Gorgoza Mutual Water Company  
High Valley Water Company  
Mountain Regional Water Special Service District  
Osguthorpe  
Park City  
Quarry Mountain Ranches Home Owner Association  
Summit Co. Service Area No. 3  
Summit Water Distribution Company

A Draft 2017 Water Use Plan (Plan) is enclosed and is based only on a preliminary review of the water rights. Following are some examples of items that would require updates:

- Newly approved water rights or change applications
- Lapsing, withdrawn, replaced, or terminated water rights and/or applications
- Changes in number of shares or exchange contracts
- New use of approved point of diversion (PODs), with new measuring devices, and/or new conveyance facilities (ditches, pipelines, etc.)
- New owner of record or other important water right changes.
- Limiting diversions to approved locations/quantities/conditions etc.

Your Plan is an important part of the operation of the Weber River Distribution System operated under the direction of the Utah Division of Water Rights and the Weber River Water Commissioner. Your Plan does not necessarily identify all applicable limitations, but must adhere to all such limitations. These limitations may include quantity, approved Point of Diversion (POD) locations, applicable contracts or agreements, source of supply, type of use, place of use, priority date, ownership, supplemental or sole supply, etc.

Water is measured and reported by the Weber River Water Commissioner and/or Deputy Commissioner. Water users are responsible for maintaining their diversion

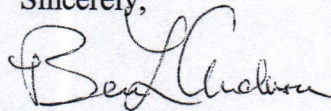

structures and measuring devices in good condition. Owners of approved Water Right "exchange" or "change" contracts are responsible for maintaining the company shares as required under the conditions of approval for the exchange to remain valid.

If a water right or a water contract changes during the year, please amend the plan to reflect the change, and re-submit the changed plan for review/approval.

**Please mail your 2017 Plan to the Utah Division of Water Rights (attn: Ben Anderson) on or before January 12, 2017.**

Thank you for your continued planning efforts each year. If you have questions relating to operation and reporting, please call Dennis Marchant, Deputy Water Commissioner at (435) 783-5648 or Cole Panter, Weber River Water Commissioner, at (801) 791-5529. If you have questions relating to your water rights and specific limits and priority dates of each right, please call Ross Hansen, Regional Engineer, at (801) 538-7240. If you have questions relating to measuring device requirements or your 2017 Plan, please call me at (801) 538-7469.

Sincerely,

Ben Anderson, P.E.  
Distribution Engineer  
Field Services

Enclosure:

cc: Ross Hansen, Regional Engineer, Weber/Western Region (letter only)  
Cole Panter, Weber River Water Commissioner (letter only)  
Dennis Marchant, Deputy Water Commissioner (letter only)

2017 MOUNTAIN REGIONAL WATER SPECIAL SERVICE DISTRICT WATER USE PLAN			
page 3 of 3		12-8-2016 Draft	
This page is for comments and notes and aligns with the same line items on the previous pages. Notes may also be updated as needed each year.			
Water Right (Same Rows as page 1)	Change (Same Rows as Page 1)	Division Comments	Water User Notes
35-10858	(E4008)	315/1091 of E358 (50AF) E1909 (125 AF) and E3711 (916 AF). 700/1091 ac-ft segregated to E4417.	E2464 is a pinebrook right. 444 af conveyed by Willow Ranch Development on 4-26-2000 from E3711. This water was used in E4008 per MD, and E3711 was superceded by E4008 for MRW, and E4034 for the remainder to Gorgoza. Limited to the East Canyon Drainage. Original Exchange was for 1091 af, 700 af was removed in E4417
0	0		E2464 is a pinebrook right. 472 af conveyed by Willow Ranch Development on 4-13-2000 from E3711. This water was used in E4008 per MD, and E3711 was superceded by E4008 for MRW, and E4034 for the remainder to Gorgoza. Limited to the East Canyon Drainage. Original Exchange was for 1091 af, 700 af was removed in E4417
0	0	Ac-ft under 46924 in 2016? 1? 195?	Withdrawn and used in E4008 for 50 af. Do not understand the 195 af shown. This may contain the E1909 for 125 af that was cancelled and moved to E4008 as well. If so there is 20 AF too much.
0	0		Withdrawn and used in E4008 for 50 af. Do not understand the 195 af shown. This may contain the E1909 for 125 af that was cancelled and moved to E4008 as well. If so there is 20 AF too much.
35-10983	(a24341)		Limited to the East Canyon Drainage. Original Exchange was for 1091 af, 700 af was removed in E4417
35-10713	(E3894)	Replaces 200 AF under E391 and E1911, and that is how it got a 1999 Priority.	Replaced by E391 for 100 af, and then superceded by E3894
0	0		Replaced by E391 for 100 af, and then superceded by E3894
0	0		Superceded by E3894. This should be 100 af.
35-10075	(a40510)	Change approved in 2015 replaced existing change. Added new PODs. Same POD?	
35-12948	(E5457)	372 AF Contracts moved to new exchange app.	E1382 is wrong, should be E3654, which was superceded by E4101 on 4/30/2001
0	0		E1382 is wrong, should be E2878, which was superceded by E4101 on 4/30/2001
0	0		E1382 is wrong, should be E2848, which was superceded by E4101 on 4/30/2001
35-9674	(E3150)	On WBWCD 2013 contract list.	
35-5778	(a10975)	Surface water use only. Need Surface Water PODs and Measurements. 1,005 cfs or 179,525 AF. 1860 Priority. Where is this irrigation surface water diverted/measured/used. Add Column? Priority of Change is 1979, which added surface PODs. Proof Due 2018. Mountain Regional may own, but not updated title.	Segregated from 35-8411, 35-8412, and 35-8416. Created to provide a number for a10975. Database notes that "Title to this right is a convoluted mess." Memorandum of Title and Supplemental Memorandum of Title (in water right file for 35-8411) provide a lot of explanation and documentation to support ownership claims. Acquired from Silver Springs Water Company in 2001, but title has not been updated. MRWSSD acquired 59.75 acres.
35-11074	(E4132)	Priority 2001, but 3-Mile-Well is outside Snyderville Basin inside Silver Creek Drainage. Replacements made from Wanship were approved.	
35-11057	(E4128)	Priority 2001. Small Exchange. Outside Snyderville Basin. Silver Creek tributary.	
35-11058	(E4129)	Priority 2001, Replaced E2802 and E3104.	E4129 Replaced E2802 by MD on 11/21/2013
35-6471	(E947)	E947 in the amount of 69 AF is owned by Silver Springs Water Co. 69 of the 500 remains. The 431 AF went to E4661 below to Mountain Regional. E947 is winter water only based on condition of approval. Mtn Regional owns but hasn't updated ownership records....title issues.	This water right is in the name of Silver Springs Water Company - We need to change it. And WBWCD shows this as E704 for 69 ac-ft and as contract 68506. This contract needs to be canceled - we do not own this right.
35-11929	(E4661)	Priority 2005. This 431 AF originated from under E947 above. It was sold by Silver Springs to Mtn Regional, along with contract storage water.	This should be contract number 68506. E1255 is a summit water right. The actual exchange number for MRW is E4661 for 431 af, not 531/ We may be paying 100 ac-ft more than we should. Or is this 100 paid for E704?
35-6294	(E704)	Priority 1973. 100AF max limit. Need WBWCD Storage Contract Water. If 46905 is for 531 ac-ft, could WBWCD clarify or move 100 to a new number?	Are we paying this contract? (this may be part of the above contract) We are paying for 531 ac-ft.
35-884	(a18551)	1994 change filed on a 1956 groundwater right.	
35-9040	(a18558)	1994 change app on a portion of an 1885 Decreed Irrigation right.	
35-9950	(a18547)	35-6443 E911 is owned by two LLC's representing 24 shares in D&WCCC. E911 was apparently reduced by 40.04 ac-ft split off under Water Right 35-9950 (a18547) owned by Mtn Regional. Mtn Regional contract for 40.04 AF with D&W in 2013.	
35-5552	(a18552)	1994 change filed on a 1956 groundwater right.	
35-9875	(a20003)		
35-10063	(a20005)		Proof filed in 12/2014 - was past 50 year period.
35-3510	(a22157)		
35-11587	(E4417)	E4417 has limit of 700 AF with maximum of 640 AF under Starpointe Well 15B. Need Contract Documentation of Source Water. E4008 was reduced by 700 ac-ft. What is the Weber Basin Storage contract number(s)?	700 AF Segregated from E4008 - original 1,091 ac-ft. 640 was moved to 15b - equal to the Silver Creek depletion limit.
35-11253	(E4782)	Moved from surface wells to surface diversion in 2012. Replaced E4231 approved in 2003 for surface wells.	
35-10942	(a40511)	Surface right changed to Well. Priority: Base 1861, Change 2015.	
35-12105	(E4807)	E4807 was segregated from E1610 owned by Summit Water Distribution Company, which was reduced.	E1610 is a Summit Water Exchange. E4807 was segregated to MRW from E1610
35-11935	(E4665)		Segregated from E1466, to be used in Nugget Well.
35-828	WBWCD	Mtn Regional WB Contract 93525 is 2100 AF. Park City WB Contract 93526 is 2900 AF. 2013 listing. Both Contracts sum to 5000 ac-ft.	Rockport Reservoir (original POD)
35-12946	(a40512)		
35-12833	(a39655)		
35-12969	(a40644)	Surface right changed to Wells. Priority 2009. 325 ac-ft.	
35-8427	(a36128)	Surface irrigation right changed to five underground well diversions provided the return flow patterns remain as historical.	
other?	0	New in 2015. Surface to Groundwater. 2015 Priority.
